FINISH

With a 10" piece of MAIN color yarn and a yarn needle, weave in and out along the top of RND 2. Pull the yarn to gather the flower into a carnation shape. Tie and knot it securely. Bend a floral wire in half and insert it into the top part of the flower and out the bottom section. Insert the wire into the calyx to form the base part of the carnation. Use floral tape to wrap around the wire to form a stem.
